DETAILED ACTION

Allowable Subject Matter

1. Claims 1-35 are allowed.

3. Authorization for this examiner's amendment was given in a telephone interview with applicant's attorney, Mr. Mark A. Hollingsworth, on 10 May 2006 and 11 May 2006.

4. The application has been amended as follows:

In claim 1, line 14, immediately after "...the processor" -- for -- was inserted.

In claim 1, line 17, immediately after "processor" -- for -- was inserted.

In claim 31, line 17, immediately after "...activity state using the" -- muscle -- was inserted.

Reasons for Allowance

5. The following is an examiner's statement of reasons for allowance:

6. Independent claims 1, 17, and 31 recite an implantable cardiac stimulation device with one or more subcutaneous non-intrathoracic electrodes for ascertaining cardiac and muscle activity. The information pertaining to the cardiac activity aids in determining in an arrhythmia is present, and the information pertaining to the muscle activity allows for the modification delivery of therapy for the determined arrhythmia.

Art Unit: 3766

The prior art fails to teach or describe alone or in combination the simultaneous recording of both a cardiac and muscle signal for aiding in the determination and treatment of an arrhythmia. Therefore, the Examiner deems independent claims 1, 17, and 31 and their depending claims allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
